

BIOENZYME STAIN & ODOR REMOVER

DESCRIPTION

Scot's *TUFF BioEnzyme Stain & Odor Remover* is an amazing blend of enzyme producing bacterial and cleaning agents that penetrate and remove the toughest organic stains and odors. Great for all colorfast carpeting.

APPLICATIONS AND USES

Safe to use on most washable carpet and upholstery. Use to remove tough organic stains and odors. Effective on blood, urine, vomit and other protein stains. Ready-to-use, no dilution required.

DIRECTIONS FOR USE

Remove any solid particles and residue. Test for colorfastness; apply product to an inconspicuous area of carpeting with white cloth. If color transfers to cloth, do not use. Apply liberally to affected area. Work into carpet and blot away stain with a clean, damp cloth. For tough odor problem, reapply and allow the natural enzymes to continue working on odor by covering affected area with moist and clean white cloth overnight. Remove cloth the next day. Repeat damp cloth blotting and let dry completely. For best results extract with **Scot's TUFF PrimeTime Encapsulating Extraction Cleaner** or **UtiMax Plus Encapsulating Acid Rinse** to remove residue and prevent resoiling.

FEATURES AND BENEFITS

- Penetrates organic stains
- Eliminates associated odors
- Removes protein stains such as blood, urine, vomit, milk, ketchup, jelly, and gravy
