

SUPER STRIPPER
NO-RINSE STRIPPER
****PERFORMANCE LINE****

DESCRIPTION

Scot's *TUFF™ Super Stripper No-Rinse Stripper* is chemically active floor finish stripper which quickly dissolves all water-based floor finishes. No rinsing is required. The chemicals do the work for you. This stripper reduces the lengthy time required for floor stripping. Just mop it on, wait a few minutes, agitate, then remove the liquefied finish with a squeegee equipped wet vac. The residual stripper film on the floor will evaporate completely. *Super Stripper* may be applied by mop or auto scrubbing machine and is intended for professional use only.

APPLICATIONS AND USES

Safe to use on most resilient floor surfaces including vinyl, terrazzo, marble and quarry tile. Not intended for use on asphalt tile, rubber tile, linoleum or wood. NOTE: Do not allow *Super Stripper* to dry on the floor at any time or the finish will be redeposited on the floor as spots. Keep wet with stripping solution. Large floors should be stripped in sections to insure that the product does not dry out. Make sure no puddles of stripper remain along aisles, walls or corners.

DIRECTIONS FOR USE

Apply solution liberally to floor with a mop or automatic scrubber. Allow at least 15 minutes contact time for stripper to remove finish. A thick application is necessary to dissolve the finish. Aged finishes with many coats will require the use of a stripping pad and floor machine. A light coating of finish can be removed by mop agitation. Remove the dissolved finish with a squeegee equipped wet vac or auto scrubber.

FEATURES AND BENEFITS

- "No-Rinse" formula
- Leaves no residue
- Easy to use - mop on, vac off
- Industrial strength

TECHNICAL DATA

Appearance..... Clear, colorless liquid
pH..... 11.4
Odor..... Solvent
Stability..... Freeze/thaw stable, heat 140°F

ITEM #	PACKAGED	DILUTION RATIOS	COVERAGE RATE
0B9911	1 Gallon Round 4/case	Normal Buildup 1:5	800 – 1000 sq. ft./gallon
0B9912	5 Gallon Pail each	Moderate Buildup 1:4	(depending on coats of
0B9913	55 Gallon Drum each	Heavy Buildup 1:1	finish to be removed)
